

Crisps of the future!

Crispy Snacks Ltd is set to revolutionise the thriving snack industry by introducing highly innovative **fat and salt- free** fruit and vegetable crisps.

Come to stand **G 711** to try our crunchy, low-calorie and highly nutritious wide range of healthy Crisps and find out more about the worldwide unique method of fruits and vegetables dehydration called **MIRVAC technology**.

The product inside the vacuumed pack retains almost all nutritious values present in fresh fruit and vegetable because the water is evaporated from the product in a form of steam within a short time (only 2 hours, temperature not **exceeding 40°C!** ; for comparison: the Freeze-drying takes 6-8 hours and the Air-Drying takes 8-10 hours). Dried fruits and vegetables are therefore crispy, crunchy and healthy. They contain the equivalent of **5- a Day** portion of fruits and vegetables.

These natural crisps are perfect snacks for children's packed lunches, diabetics, and health conscious consumers.

Product attributes:

- no salt
- low fat
- low calorie
- gluten free
- 100 % natural
- no added sugar
- free from additives and colourings
- not fried or baked
- good source of fibre
- non-GMO ingredients

Our delicious **Crispy** are available in 20 g packs, which are equivalent of 2 fresh apples in **Crunchy Apple Crisps**, 3 fresh carrots in **Crunchy Carrot Crisps**, 3 fresh tomatoes in **Crunchy Tomato Crisps** and 3 fresh beetroots in **Crunchy Beetroot Crisps**.

Crunchy Apple Chips come in four distinctive flavours: natural, cinnamon, banana and strawberry. Crunchy Apple Chips and Crunchy Apple Chips with the banana flavour are this year **Great Taste Awards Gold Star Winners**.
