Client: Kavis Ltd

Subject: Fluted Packaging

Word count: 318 words

FOR IMMEDIATE RELEASE

### **New eco-friendly, take-away packaging from Kavis**

Kavis is widely considered to be one of the leading suppliers of packaging and food presentation solutions in the UK because they are constantly expanding their product range with new innovative packaging solutions. Now they are able to offer customers even more choice, with a new range of printable packaging products for hot and chilled takeaway food and drinks. Utilising a rigid and insulated, recyclable material, the products include cup sleeves and hot or chilled sandwich containers, providing attractive and cost effective solutions for anyone in the foodservice sector.

Insulated cup wraps, suitable for hot and cold drinks will be available in sizes to fit 8oz, 12oz, 16oz and 20oz cups. Kavis will also stock printable corrugated, insulated hot boxes; lightweight packaging for take-away foods such as pasta, ready meals and jacket potatoes. In addition they will offer printable fluted, insulated take-away packs for hot sandwiches, with a range of specifications to suit baguettes or paninis and which can also incorporate a window to display the food. Similar packaging, specifically designed for chilled foods, can also be supplied, which will help to keep produce like salads, fruit and vegetables fresher for longer.

“This is really effective take-away packaging, produced by one of the most established manufacturers in the business,” said Chirag Shah of Kavis. “It’s perfect for hot and cold food and drinks and with the added benefit of bespoke printing it makes a great solution for independent retailers who want to make more of their branding. I am very pleased to add this to our inventory because it fits in perfectly with our environmental policy. Lightweight, eco-friendly and using innovative design these excellent products provide a variety of practical options for the environmentally aware business owner in the food-to-go sector.”

See Kavis on stand number A101 at Lunch on September 29-30.
